

# Apache Drill Community

2021 summary and reporting.

Cong Luo  
luoc@apache.org

# Overview

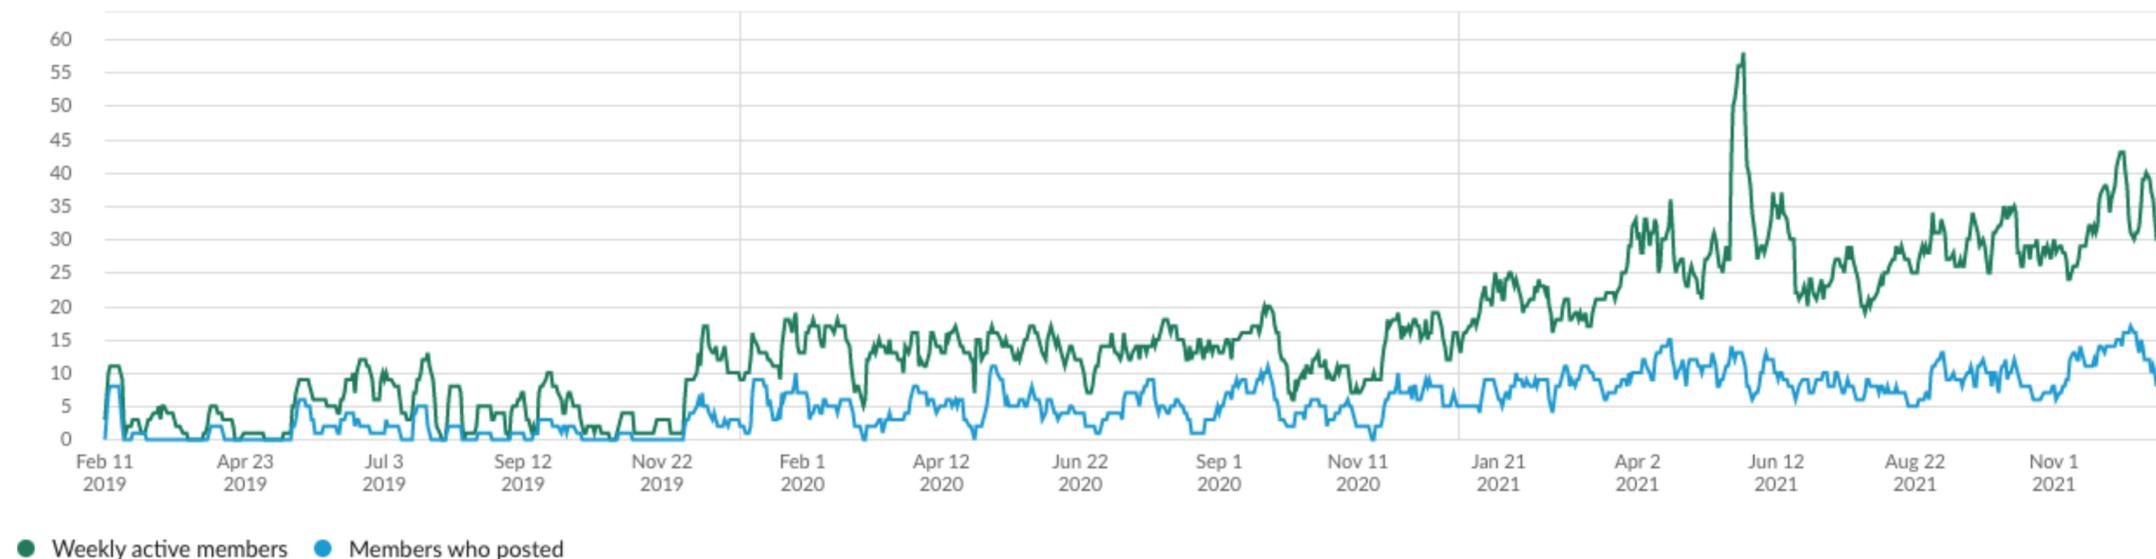

- Community status
  - Slack channel
  - Mailing Lists
  - GitHub
  - Publicity
- Release frequency
- Contributor Development

# Community status

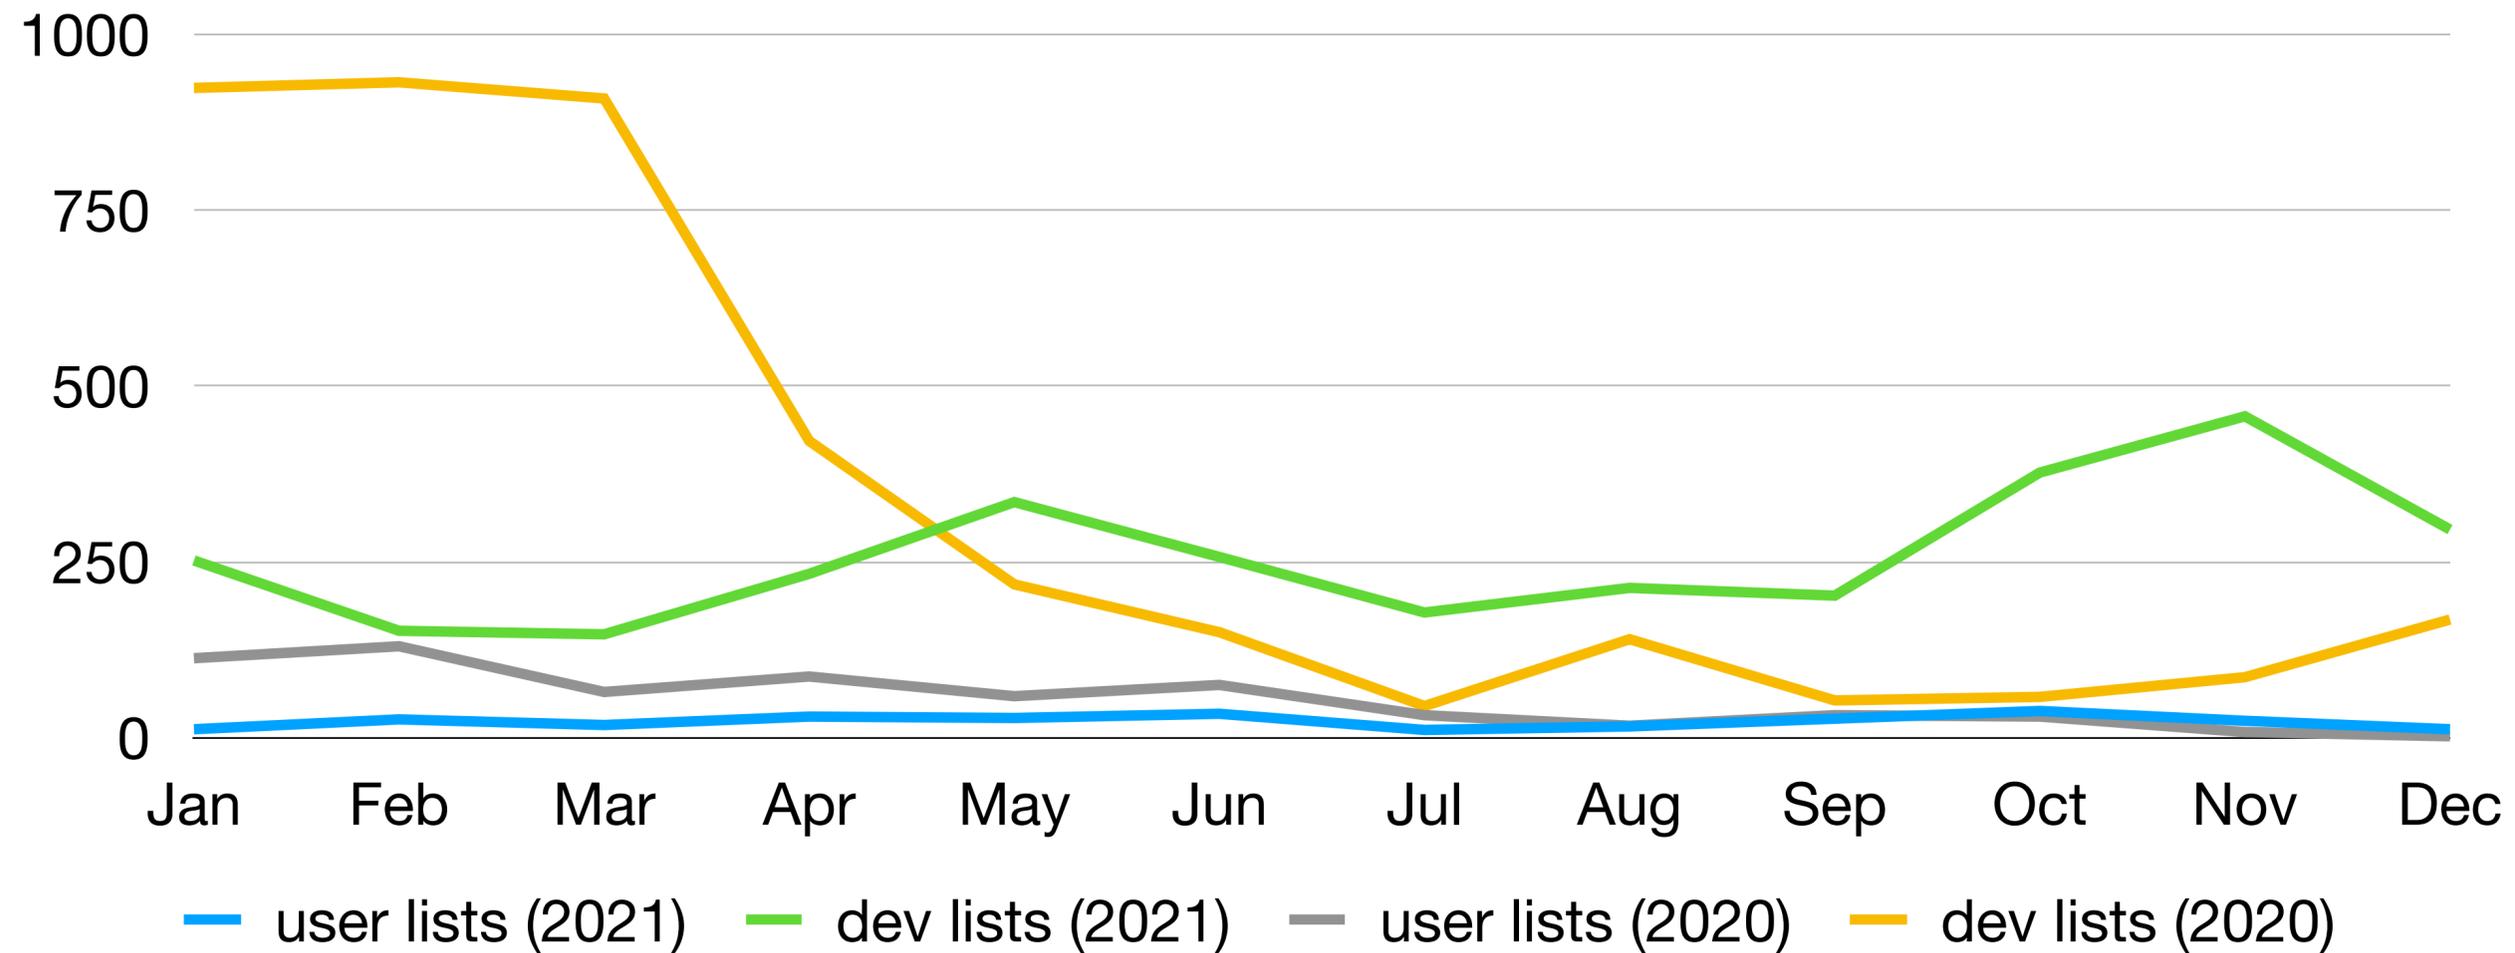

## Slack channel

- The number of members is up to 320+.
  - year-on-year growth rate 266%.
- The **user** and **general** groups are the most active.
- The trend of increased :

# Community status

## Mailing Lists

# Community status

## GitHub

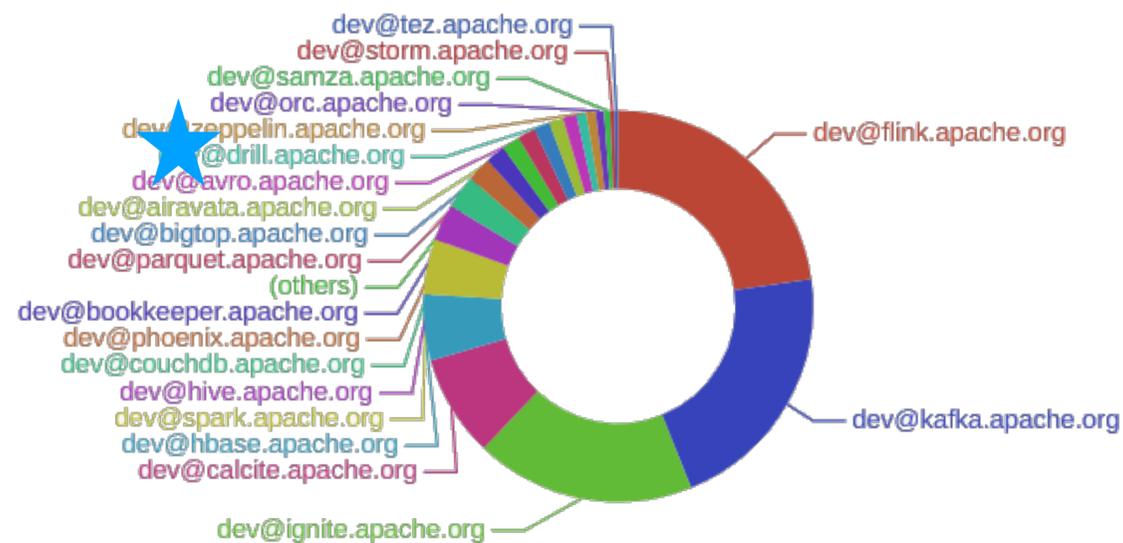

- Enable the GitHub Issues function.
  - As many as 47% of issues are closed.
- Turn on LGTM.com (Java, Python and JS) analysis for the codebase.
- Upgrade to use JDK 8, JDK 11 and **JDK 17** to build and test.
- Added the Travis CI (based on **aarch64**) for the build and test.
- Added the Dependabot alerts for the **vulnerability**.

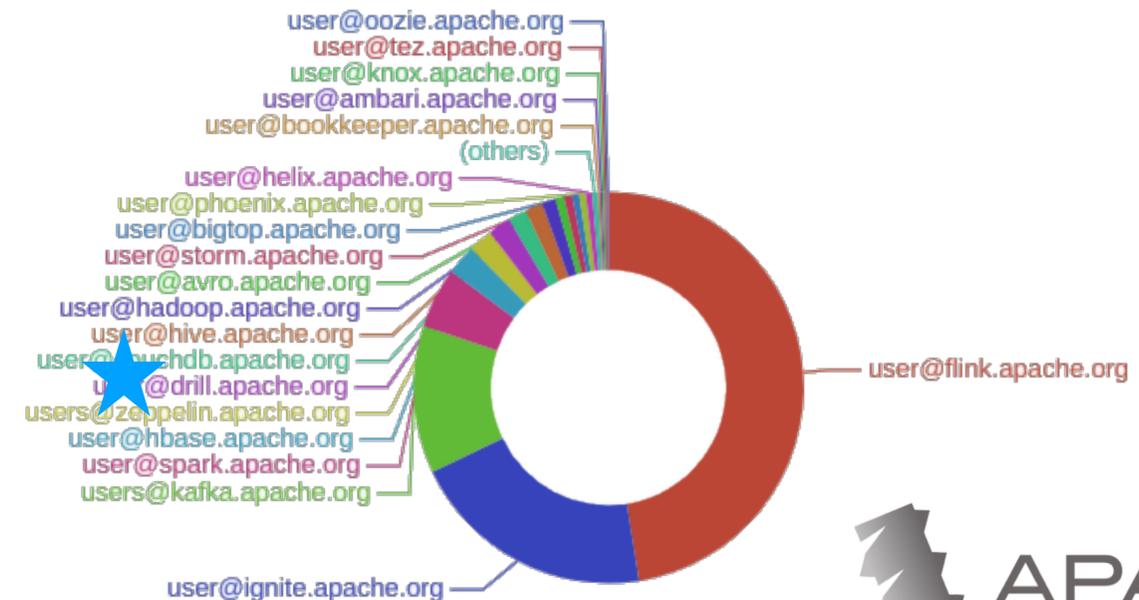

# Community status

## Publicity

- Put the multilingual support on the website (adding Chinese docs).
- ApacheCon 2021 - “ Versatility and Functionality of Apache Drill ”
- ASF FY2021 (01 May 2020 - 30 April 2021) :

Top 20 Big Data Lists (dev)

Top 20 Big Data Lists (user)

# Release frequency

## Release note

- Performance
  - To\_EVF / RESTful streaming / Parquet V2 / EVF V2 / Pushdown framework...
- Security
  - Plugin credentials provider / Lots of patch for CVE...
- Functionality
  - Support aarch64 / Writer to JDBC / Mongo metastore and lots of bugs fix..
- New Format and Storage
  - XML / Splunk / ES / C\* / SAS / Dropbox / CK / OCI / Iceberg / Phoenix

# Release frequency

## Release cycle

- Ready to speed up the release cycle
  - Send a **VOTE** email to dev and user mailing lists.
  - **Optional** : once every two months / once a quarter / once every four months.
  - Keep the rhythm.
- Design the Roadmap
  - Using the GitHub **Project**.
  - Using the GitHub **Issues** + milestone.

# Contributor Development

## The challenge

- Not friendly with the newcomers
  - Not easy to find a “Get Started” task.
  - Welcome to create it (for newcomers) on JIRA and GitHub.
- Poor documentation
  - Not easy to find the docs, but it actually exists.
  - Welcome to **organise** docs according to user cases.

# Contributor Development

## The goal

- Develop new format is good for new contributors
  - Apply the **easy** plugin framework.
  - Understand the **read-write** paths.
  - Dive into the Drill internal from the **unit tests**.
- Sharing Drill internal
  - Provide time to ask questions.
  - Face-to-face with the committer.
